Hilfe für Jungen* bei sexualisierter Gewalt

Boys* are also victims of sexual violence.

All children and adolescents have the right to receive counselling and support if they are subjected to sexual violence. Their parents and caregivers too.

Sexual violence can be perpetrated by adults, children and adolescents, including through contacts on the internet and social media.

berliner jungs offers consultations for affected boys* and concerned relatives.

Questions could include:

- What can I do if I suspect that my child has been sexually abused?
- How can I empower my child to recognise and avoid risky situations?
- What type of support is available?
- How should I talk to my child after they have been subjected to sexual violence?
- If I decide to file a criminal complaint, when is the best time to do so, and what consequences will this have for me and my child?

All consultations are free of charge and confidential. Also, if desired, you can remain anonymous.
